RASPBERRIES—St. Regis, Plum Farmer
BLACKBERRIES
GRAPES
STRAWBERRIES
St. Regis.—It has been called everbearing by some but it hardly bears that out, although it comes nearer it than any other we ever saw. Its principal value lies in its first crop which is equal to any and better than many.

The other crop is on the young wood and runs for quite a time and the berries are large and of fine quality. It bears the first season.

It is worth the prices at which we are offering it as a regular one crop variety.

Price—75c per 10; $3.00 per 100; $25.00 per 1000.

Plum Farmer.—Plants are hardy, vigorous and productive; the berries large, good in color and quality. It has already been grown in many localities. It has already been grown in many localities and reports on its behavior are very favorable. The berries ripen very early and most of the crop is produced in one week. The fruit is very large thick meated and firm making a good berry to ship to distant markets. A Blackcap.

Price—75c per 10; $3.00 per 100; $25.00 per 1000.

Cumberland, (Black)—Strong grower productive, large berries, quality good, ripens in mid-season, and it should be tried by every fruit grower.

Price—75c per 10; $3.00 per 100.

BLACKBERRIES

Rathbun.—Plant vigorous and productive, withstands drought well. Fruit large and handsome, without any hard core. Juicy and of high quality.

Price—75c per 10; $2.50 per 100.

Lucretia Dewberry.—The fruit, which ripens before blackberries, is often one and one-half inches long by one inch in diameter, sweet and luscious throughout without any hard center or core.

Price—60c per 10; $2.00 per 100.
McDonald. (Imperfect Blossom.) — Plant every 3rd or 4th row with Dallas or Lucretia.

The earliest of all Blackberries.

Prof. L. R. Johnson says: "I feel, that in the McDonald there has arisen the greatest of the blackberry family." The McDonald is three weeks ahead of Eldorado, equaling it in every other particular, it surpasses in quality and size. The berries are very large, longish and uniform in size. In quality it is equal to any variety of any season. The plants are extremely vigorous, bearing immense crops, one man harvested 500 bushels per acre. It stands the dry weather perfectly and holds its foliage well. It will hang on the bushes for several days after ripening. The earliness, size, fine quality command for it higher prices than can be had from others. It is as hardy as most blackberries and will stand colder weather than Early King, Early Harvest, Lucretia and Ward and in fact will stand as much cold as the peach tree. The plants will trail during the first year but become upright afterward. For market we know of no berry that will pay as well. For home use it extends the season, being at least a week earlier than Lucretia Dewberry.

**Prices.**—75¢ per 10; $2.50 per 100.

- 10 McDonald and 3 Dallas for $ .85
- 75 McDonald and 25 Dallas for 2.50
- 800 McDonald and 200 Dallas for 24.00

Dallas.—Another very early blackberry following McDonald but blooms at same time and therefore is valuable to fertilize that variety. It is very vigorous grower with drooping and thorny vines that produce large crops of big berries of high quality. It has proven to be a good market variety.

Eldorado.—The vines are very vigorous and hardy. The berries are large jet black borne in large cluster, and ripen well together, they are very sweet, melting and pleasing to the taste, have kept eight or ten days after picking with quality unimpaired.

**Price.**—75¢ per 10; $2.50 per 100.

Mersereau.—This is a very large, oval berry and does not turn red after it is picked; flesh sweet, melting, rich, very best quality. Bush strong, vigorous, extra hardy and resistant to disease. It is a most profitable blackberry.

**Price.**—75¢ per 10; $2.50 per 100.

Ward.—Blossom perfect, never showing a sign of doubling. Fruit immense in size, jet black in color, very firm, tender and melting, without core, and of the highest quality.

**Price.**—75¢ per 10; $2.50 per 100.

**APPLES**

The great scarcity of trees makes it necessary for you to get quotations on 100 lots.

**PRICES OF APPLE TREES.**

(Grades we can do marked under each variety.)

**SUMMER APPLES**

Early Harvest.—Medium size, pale yellow, early, mild, excellent subacid.

(Large size only)
Gravenstein.—Large, bright yellow, roundish, splashed with red and orange. (Both sizes.)

Liveland Raspberry.—A fine early apple, bearing very young. A good shipper of fine quality. A white apple almost covered with stripes and splashes of bright red. (Small grade only)

Summer Pearmain.—Medium, oblong, red, flesh yellow, rich, juicy, tender and pleasant flavor. (Small grade only.)

Sweet Bough.—Large, pale yellow, sweet, productive, valuable for market, early. (Both sizes.)

Yellow Transparent.—Medium, yellow, smooth, waxy surface. (Both sizes.)

EARLY AUTUMN VARIETIES

Duchess of Oldenburg.—A large beautiful Russian apple: roundish; skin reakcd red and yellow, tender, juicy and pleasant. A kitchen apple of best quality and esteemed by many for dessert. Tree a vigorous fine grower and a young and abundant bearer. Very profitable for market. (Large size only.)

Fall Pippin.—Very large, yellow, tender and best quality. (Both sizes.)

English Codling.—Very large, yellow with red cheek, handsome, sub-acid, good, productive; extra fine for cooking and market. (Both size s.)

LATE FALL AND WINTER VARIETIES

Baldwin.—Large, roundish, dark red, fine flavor. medium, sub-acid, crisp and juicy. (Large size only.)

Delicious.—A large apple of most pleasing color, being a rich red with just enough yellow to be pleasing to the eye. The quality is of the best, being juicy, fine grained and truly Delicious. (Small size only at 75c each; $7.00 per 10.)

Grimes Golden.—Medium size, yellow, highest quality, rich, tender. Our most profitable late fall apple. It bears young and regularly. Its large crop of fine apples always commands good prices and the demand far exceeds the supply. (Both sizes.)

Jonathan.—Medium, deep red, tender, juicy and rich; one of the best apples for family and market. (Both sizes.)

King of Tompkins Co.—Very large and fine, red striped, sub-acid. (Large size only)

McIntosh Red.—Medium size, nearly covered with dark red; flesh white, fine, very tender, juicy and refreshing. A good annual bearer of fair, handsome fruit. Resembles the Fameuse. (Large size only at $1.00 each.)

North Western Greening.—Medium yellow, rich, extra good keeper. (Both sizes.)

Roxbury Russet.—The largest russet, extra quality. (Large size only.)

Rome Beauty.—Large, yellow, shaded with bright red, a very profitable variety. One of the surest croppers and best keepers. (Small size only.)

Smokehouse.—Large, shaded with bright red, firm, juicy and crisp, fine quality. (Large 2 year old and large 1 year old at large size price.)

Stark.—Large, striped with red, flesh yellowish and moderately juicy. A splendid keeper and heavy cropper. Very profitable and satisfactory. (Large size only.)

Staymans Winesap.—This apple should not be confused with the old Winesap. It is double the size and of much finer quality. In color, it is a dark red with faint stripings. A heavy young bearer of the very best quality of fruit which pleases everyone and will keep. We consider it the best apple that we have every grown. (Both sizes.) (Also large one year olds at 75c each; $7.00 per 10; $65.00 per 100.)

Winter Banana.—It is a golden yellow, with slight blush or tint of red on sunny side. It is of excellent flavor. (Large size only.)

Yellow Bellflower.—Large, yellow, rich, crisp, juicy, sprightly acid flavor. (Both sizes.)

York Imperial (Johnsons Fine Winter) —Medium to large, yellow, shaded red, firm, juicy, sub-acid. An excellent shipping apple. (Both sizes.)
VILLAGE NURSERIES, HIGHTSTOWN, N. J.

CRAB APPLES

Price—2 year, 75c each.

Martha.—The ground is a bright yellow, nearly overspread with bright red.

Transcendant.—Large, roundish, rich crimson, white bloom, flesh crisp.

Whitney's No. 20.—Large, almost red, striped; flesh yellowish white, very juicy, sub-acid, excellent. Tree vigorous.

PEACHES

The trees that we offer were grown from Natural North Carolina Seed on ground that has not been used for the purpose for twenty years or more and budded from stock that was absolutely true to name and free from all disease.

PRICES FOR PEACH TREES

All trees are one year old from bud. Write for quotations on 100 lots.

Peach trees are very scarce; note the sizes we can do under each variety.
The list of varieties which follows is arranged in order of ripening as nearly as possible.
The letters after each variety denotes the color of the flesh. (Y) is yellow, (W) is white and (R) is white with more or less red or pink mixed through the flesh.

Varieties not otherwise described are freestones:

Maules Early.  (R).—Ripens two or three days after Mayflower and three weeks before Carman. In color it is brighter, and its quality is very much better than any other peach ripening within ten days. It begins to bear the second year after planting and we have never seen it miss a crop. It ships well and rots less than any other early peach.

Greensboro.  (W).—Medium, oval, creamy white, with rich red blush, almost freestone.

Carman.  (R)—Large, resembles Elberta in shape; color, creamy white or pale yellow, with a deep blush skin very tough flesh tender, fine flavor and quite juicy.

Miss Lolo.  (R)—Large size with satin skin with bright red cheek flesh white quality best of the very early varieties. The best early market peach. Ripens with Carman and is a better and more profitable variety.

Hiley (Early Belle).  (R)—Seedling of Belle of Georgia; like its parent in size color and beauty; ripens nearly a month earlier; a large rich creamy white peach with rich blush on sunny side; fine quality; good shipper.

(All sizes.)
JOSEPH H. BLACK, SON & CO.

Champion. (R)—Very large rich cream white, with red cheek flesh white sweet delicious. (4 to 6 ft. only.)

Niagara. (Y)—Seems to have all the good qualities of Elberta and is about one week earlier the quality is far superior. It is hardy both in bud and wood. It is very large and of beautiful color and regular in size and shape. (4 to 6 ft. only.)

Belle of Georgia. (R)—The Elberta furnished a new type of early regular and heavy bearing yellow peaches which has never been equalled for shipping and profit. The Belle of Georgia is just as distinctive in the white varieties. It is of large size, uniform in shape and very showy. Quality is good to excellent. It comes into bearing young and is very prolific and picks over an extended period, finishing up just as Elberta begins. (All sizes.)

Hale. (Y).—This is the much advertised variety originated by J. H. Hale and sold to Wm. P. Stark. We will sell the three smaller grades at regular prices to customers who order other varieties; if wanted otherwise, ask for special prices. We saw this variety fruiting and liked it very much. It is a very large, round, yellow fleshed peach that is highly colored and ships well. (All sizes.)

Early Elberta. (Y).—(Gold Finch).—A more handsome peach than the Elberta. The yellow on shaded side is very bright and clean appearing. Ripens a few days ahead of Elberta and in most characteristics similar to that variety. (4 to 6 ft.; 3½ to 5 ft. and 2 to 3 ft.)

Elberta. (Y)—Very large, skin golden yellow and where exposed to the sun, faintly striped with red; flesh yellow, very fine grain, juicy rich, sweet and splendidly flavored; tree very prolific and presents a handsome appearance and a luxuriant growth. It is a perfect freestone and one of the most successful market varieties. Does well everywhere. (4 to 6 ft; 3½ to 5 ft., and 2 to 3 ft.) (Will not sell alone.)

Iron Mountain. (W)—Size enormous, oblong or egg shape, color pure white, sometimes having slight blush. It is a perfect freestone and has a good quality as any white peach we have grown. Season, September 20th to October 10th, according to season and soil. The most regular bearer and by far the most profitable peach we have ever grown. (A few 4 to 6 ft.; 4 to 5 ft., and 3 to 4 ft.) (Also June Buds at 30c each; $2.50 per 10.) (Will not sell alone.)

CHERRIES

HEARTS AND BIGARREAS, OR SWEET CHERRIES

Prices—large 2 year, $1.00 each; $8.00 Per 10.

Black Tartarian.—An old and popular variety; large, purplish black, juicy, rich, excellent; early.

Gov. Wood.—Large, roundish, depressed at stem; skin light yellow, shaded and marbled with bright red; flesh tender, juicy, sweet and delicious; early.

Mercer.—The fruit buds are hardier than any other variety of heart cherries, thus insuring annual crops. Fruit, very large often measuring three-quarters of an inch in diameter; color, dark glossy red, almost black when fully ripe, having the appearance of being varnished; quality unexcelled for table use or canning; ripens early.

Yellow Spanish.—Large, flesh very firm, juicy and delicious; pale yellow with a bright red cheek in the sun.

Napoleon.—Very large, pale yellow or red; firm, juicy, and sweet. A vigorous grower and very productive; one of the best.

Schmids Bigarreau.—A most promising Cherry. Fruit of immense size, of a rich, deep black; flesh dark, tender, very juicy, with a fine flavor. Bear abundantly, and makes a most excellent dish for the table.

DUKES AND MORELLOS.

OR SOUR CHERRIES

Prices of Sour Cherries Each.

All varieties, $1.00

English Morello.—Medium to large; blackish red, rich, acid, juicy and good, very productive. Very late.

Early Richmond.—Medium size; dark red; melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is unsurpassed for cooking purposes, and is exceedingly productive.

Large Montmorency.—A large, rich, acid cherry, larger than Early Richmond and fully ten days later.

*Bartlett—Large, yellow, flesh white, exceedingly fine grained and buttery.

Clapps Favorite. — Very large, yellowish green to full yellow, marbled with dull red, vinous, melting and rich.

*Beurre d'Anjou. — Large greenish, sprinkled with russet, flesh melting, with a high, rich, vinous, excellent flavor, productive, succeeds well as a dwarf.

*Beurre Clairgeau. — Large, skin yellow, inclined to fawn, shaded with orange and crimson, covered with russet dots; flesh yellow, buttery, juicy, somewhat granular, with a sugary, vinous flavor.

Beurre Bosc. — A large, fine pear, russety yellow, slight brownish red in the sun; flesh white, melting, juicy, productive.

*Duchess de Angouleme. — Very large, dull greenish yellow, streaked and spotted with russet, flesh white, buttery and very juicy, with a rich and very excellent flavor; on the young standard trees the fruit is variable, but as a dwarf it is always fine.

Flemish Beauty. — Large, pale yellow, much russeted, rich, melting and vigorous.

Keiffer. — Fruit large, to very large, skin yellow, with a bright vermillion cheek; flesh brittle, very juicy, quality good.

Lawrence. — Medium, yellow, covered with brown dots; flesh white with very much aromatic flavor.

*Seckel. — Small, rich, yellowish, one of the best and most highly flavored pears known. Best of all pears.

Sheldon. — Large, russet, juicy, and excellent, one of the best varieties, a fine grower and productive.

Vermont Beauty. — Tree hardy and vigorous, early and abundant bearer. Fruit medium size yellow with red cheek, rich, juicy, best quality.

MULBERRIES

Price. — 4 ft., 60c each; 2 to 4 ft., 40c each.

New American. — Equal to Downing in all respects and a much hardier tree. Vigorous grower, very productive, the best variety of fruit, ripe from middle of June to middle of September.

Downing Everbearing. — Highly ornamental for street or lawn, yielding an abundant supply of very large, black, handsome berries, sweet, rich and excellent.
PLUMS

EUROPEAN PLUMS

Prices—2 year, 4 to 6 feet, extra fine, 75c each; $7.00 per 10.

German Prune.—Fruit oval in shape, nearly two inches long, of good quality for the table and much esteemed for drying and preserving, hangs long on the tree and is firm, sweet and pleasant.

Grand Duke.—A very handsome plum especially valuable for market. It resembles Bradshaw in size and color, being very large and of fine dark violet red.

Green Gage.—Small considered the standard of excellence. Mid-season.

Reine Claude.—A large, fine variety. Skin greenish yellow, covered with a thick bloom, flesh yellow, juicy, melting, with a rich sugary, excellent flavor.

Bradshaw.—Very large and early, dark violet red, juicy and of good quality, productive.

Moore's Arctic.—Size medium; skin purplish black with a thin blue bloom; flesh greenish yellow, juicy, sweet.

Shropshire Damson.—A medium size, dark purple variety; esteemed for preserving. Very productive and ripens late.

Lombard.—Oval; violet-red; flesh yellow, juicy and pleasant; a great bearer.

JAPAN PLUMS

Prices—2 year extra large 75c each; $7.00 per 10.

Abundance.—Beautiful lemon yellow, nearly overspread with bright cherry, oblong, flesh orange yellow, melting, rich and highly perfumed. Abundant and unusual bearer.

Burbank.—The fruit is large, nearly globular, cherry red, flesh a deep yellow, with a peculiar and agreeable flavor.

October Purple.—The fruit is round in form, color a reddish purple a little darker than the Bradshaw; flesh yellow, stone small, and in quality superb.

Red June.—Of value for its very early ripening. The fruit is medium to large roundish conical, deep purplish red, very handsome and attractive; flesh pale yellow firm and meaty.

Satsuma.—Large, purple and red, thick bloom, flesh blood red, firm and juicy, splendid canner.

Wickson.—Fruit remarkable handsome, deep maroon red, stone small, flesh fine texture, firm sugary and delicious.

APRICOTS

We have found some demand for this delicious fruit and while it does not fruit in some sections, in others it bears crops that are much appreciated.

Price—(Named varieties) 3 ft, 50c each.

QUINCES

The Quince requires a deep, rich, moist soil, but if well manured and mulched, they will succeed admirably upon dry ground. The tree is hardy and compact in growth, requiring but little space, productive and comes early into market. Prune off all dead or surplus branches and thin out the fruit bearing too freely.

Prices—2 year, extra nice, 75c each; $6.50 per 10.

Bourget.—Strong grower, prolific, hardy. Fruit large, smooth and fine grained.

Champion.—Fruit very large, fair and handsome. Tree very productive, surpassing any other in this respect; bears abundantly while young, flesh cooks as tender as the apple, and without hard spots or cores, flavors delicate, imparting an excellent quince taste and odor to any fruit with which it is cooked.

Orange.—Large, roundish, bright golden yellow, cooks tender, and is of excellent flavor. Valuable for preserves or flavoring, very productive, the most popular and extensively cultivated of the old varieties.

Rae's Mammoth.—A superb fruit; much larger than the Orange, but of the same form and color. Tree healthy; very thrifty grower. Productive.

Meech's Prolific.—A vigorous grower and immensely productive, frequently bearing fruit when but two years of age, increasing in quantity yearly to such an extent as to require vigorous thinning to prevent injury to the trees from overbearing. The fruit is large, lively orange color, of great beauty and delightful fragrance; its cooking qualities are unsurpassed.
**GRAPES**

**Campbell's Early.** (Black)—Bunch large shouldered. Berry large, nearly round, covered with light bloom, blue; adheres strongly to stem; skin does not crack, flesh somewhat pulpy, sweet, with slight aroma, not foxy; quality the same as Concord. It ripens very early; a fine shipping grape. Vine a good grower.

**Price**—2 year, 35c each; $3.00 per 10.
1 year, 30c each; $2.50 per 10.

**Catawba.**—Dark red when fully ripe. Bunches large; berries medium to large, with rich flavor.

**Price**—1 year, 30c each; $2.50 per 10.

**Concord.**—A well known, large, purplish black grape, vines remarkably vigorous.

**Price**—2 year, 35c each; $3.00 per 10.
1 year, 30c each; $2.50 per 10.

**Delaware.**—Small, light red, skin thin, very juicy, sweet and sprightly; one of the finest flavored hardy grapes.

**Price**—1 year, 40c each; $3.50 per 10.

**Elvira.**—White. Bunch and berry medium, very compact; vine vigorous, strong healthy grower and very productive.

**Price**—1 year, 25c each; $2.00 per 10.

**Catawba.**—Dark red when fully ripe. Bunches large; berries medium to large, with rich flavor.

**Price**—1 year, 25c each; $2.00 per 10.

**Brighton.**—Berries medium, to large, round, light red to dark crimson in color; flesh tender, sweet, productive. Early.

1 year, 30c each; $2.50 per 10.
2 year, 35c each; $3.00 per 10.

**Empire State.**—Bunches large, shouldered; medium to large, roundish oval, color white; flesh tender, juicy, rich and sweet.

**Price**—1 yr., 30c ea.; $2.50 per 10.

**Green Mountain.**—Clusters and berry medium, greenish white, thin skin, fine quality; tender, sweet, strong grower, exceedingly hardy. Very early.

**Price**—1 year, 40c each; $3.50 per 10.

**Lutie.**—Earliest red grape in the market; vines hardy; a strong grower; bunches solid; berries large; color light chocolate; flavor equal to Delaware; sweet and rich.

**Price**—1 year, 35c each; $3.00 per 10.
Moores Diamond.—White; bunch large, compact, shouldered; berries large, round, skin thick, firm, flesh tender, juicy, with but little pulp.
Price.—2 year, 25c each; $2.00 per 10. 1 year, 20c each; $1.50 per 10.
Niagara.—Bunch is very large and compact, sometimes shouldered; berries large: light greenish white; semi-transparent; skin thin, quality good.
Price.—2 year, 40c each; $3.50 per 10. 1 year, 30c each; $2.50 per 10.
Worden.—Black; bunch large, sometimes shouldered, compact; berries very large, skin thin. One of the best, if not the best.
Price.—1 year, 30c each; $2.50 per 10.

Wilder.—One of the strongest growers, and most productive. Bunch and berries very large, bright, attractive red color. Compared with the celebrated Fays, is equal in size, with longer bunch, better in quality, with much less acidity and fully as prolific.

Boskoop Giant.—To those who desire a black currant we recommend this variety. It is a strong grower and good cropper. The berries are large and ripen early. It is better than other black varieties.

Fays Prolific.—Color, rich red. As compared with the Cherry Currant, Fays Prolific is equal in size, better flavor, with much less acid.

White Grape.—Very large, yellowish white, sweet or very mild acid, excellent quality and valuable for the table; the finest of the white sorts. Very productive.

Cherry.—Large, red; bunch long; of great beauty and excellent quality. One of the oldest and best.

GOOSEBERRIES

Downing. — Very popular; large pale green, good quality; bush vigorous, hardy, prolific. The fruit hangs in thick close rows. It bears abundantly, is hardy, requires but little attention, continues for almost a life-time.

Price.—2 year, 35c each; $3 per 10.
1 year, 30c each; $2.50 per 10.

Houghton.—A medium size American variety; fruit smooth, red, tender and very good; bears abundant and regular crops. Free from mildew.

Price—3 yr., 25c each; $2.00 per 10.
ASPARAGUS

Prices

Per 100. Per 1000.
2 year.......................... $1.25 $8.00
1 year.......................... 1.00  6.00

For garden culture, plant in beds two feet apart each way; for field culture, make five feet apart and plant two feet apart in rows. Set root six inches below the surface, covering but two inches deep at first, and filling in after the plant has pushed forth, by degrees, the first season as you continue to cultivate. The size and curfiness are always proportionate to the amount of manure applied.

Barr's Mammoth.—A very superior variety, both as to size and quality, and have realized ten cents more for it per bunch than for Conover's.

Palmetto.—It is an improvement on Conover's in that it yields a much heavier crop, fully as large and of much more even and regular size. It is fit for use nearly a week before Conover's. Best variety for all purposes.

NUTS

English Walnut.—The tree is of fine spreading habit, making it available for shade. Every poultry raiser should use it in preference to other trees as it gives the desired shade and at the same time produces a crop that cannot be eaten or damaged by fowls.

The trees we offer are northern grown from northern seed. The nuts will not be as bright in color as those offered at the stores because they have not been cleaned and polished but the quality will be better.

18 to 24 inches......................... .75 $6.50
12 to 18 inches......................... .60  5.00

HARDY INDIANA PECAN SEEDLINGS

These are hardy trees that will stand the cold as well as the apple and will bear thin shell nuts of the very best quality but their size averages less than the budded varieties. They are transplanted stock and will stand moving.

Prices. —3 ft., transplanted. 50c each; $4.00 per 10; $25.00 per 100.

Hickory, Shellbark or Shagbark.—To our taste no other nut that grows, either foreign or native, is superior to this in quality. It possesses a peculiar, rich, nutty flavor, excelled by none. The tree is of sturdy, lofty growth.

Price.—2 to 3 feet. Each, 65c.

Butternut. (White Walnut.)—A large nut, with rough surface; kernel very rich.

Prices.—4 feet. Each, 75c.

Black Walnut.—A native tree of large size and majestic form, beautiful foliage. Tree is a rapid grower, producing a large round nut of excellent quality.

Our stock have very fine straight stems. Well rooted trees grown from large thin shell, high quality nuts.

Prices.—(Stock has been transplanted.) 5 to 6 ft., very large and fine. 75c. each,

HARDY VINES AND CREEPERS

Wisteria Sinensis.—It grows very rapidly and blooms profusely. The flowers are a beautiful shade of blue, hanging on graceful pendulous clusters. Price, 35c each.

Wisteria Sinensis Alba.—The white variety of the above class. Price, 35c each.

Clematis Paniculata.—The flowers are pure white, borne in large clusters, converting the plant into a perfect mass of white. Price, 40 cents.
ORNAMENTAL TREES

American White Ash.—A native tree of quick growth with massive trunks and broad spreading limbs valuable for shade and street planting.

Price.—6 to 7 ft. 75c each; $6.00 per 10.

European Mountain Ash.—A fine hardy tree with a dense head of very attractive compound of leaves. Bears white flowers in May and is covered with showy clusters of red berries from July to frost.

Price—6 to 7 feet 75c.

Catalpa Bungeii. (Umbrella Tree Japan.)—One of the most attractive of trees which when better known will certainly be in great demand for lawns and all ornamental grounds. It forms a perfect half-globular or umbrella head with foliage of a deep green color with great precision and making a beautiful roof of leaves upon which the light plays with delightful effect making one of the finest trees that can be planted on a lawn or for a shade trees.

Price—Extra large heads and straight stems $2.00 each.

Catalpa Speciosa.—Very rapid growers. Large heart-shaped downy leaves compound panicles of white flowers tinged with violet and dotted with purple and yellow.

Price—7 to 8 feet 50c each; $4.00 per 10.

Red Flowering Dogwood.—A rare specimen of the common White Dogwood which it resembles except in flowers which are of a beautiful shade of pink.

Price—3 ft., $1.75 each.

White Flowering Dogwood.—The native large white-flowering Dogwood. A most effective plant on the lawn.

Price.—3 to 4 feet 75c each.

Norway Maple.—A large handsome tree of spreading rounded form with broad deep green shining foliage. Its compact habit and strong vigorous growth render it one of the most desirable species for the street park or garden.

Prices—7 to 8 feet 60c each; $5.00 per 10; $40.00 per 100.

8 to 9 feet $1.25 each; $10 per 10.
9 to 10 feet $1.50 each; $12.50 per 10
10 to 12 ft. $2.50 each; $20 per 10.
12 to 14 ft. $3.00 each; $25 per 10.

Horse Chestnut, White Flowering.—A very beautiful well known tree with round dense head dark green foliage and an abundance of showy white flowers in the early spring.

Price.—5 ft. 75c each.

Prices

9 to 10 ft. $1 each; $7.50 per 10.
10 to 12 ft. $1.25 each; $12 per 10.

Lombardy Poplar.—Attains a height of from 100 to 150 feet. Well known and remarkable for its erect rapid growth and tall spiral form. Indispensable in landscape gardening to break the ordinary and monotonous outlines of most other trees.

Price—

8 ft. $1.00 each.

Weeping Willow.—This is the well known Weeping Willow whose long pendulous branches droop so gracefully and sway so gracefully. A splendid shade tree that does well on wet or dry ground.

Price—

6 to 8 ft. 75c each.

EVERGREEN VINES

Euonymus Radicans.—An evergreen with small glossy green leaves that is particularly adapted to covering foundations of house. It clings to stone brick or stucco and being a slow grower makes a beautiful covering. By clipping and shaping it can be used like Box edging.

Price—3 year field grown 25c each; 3 for 50c; $1.50 per 10.

Euonymus Radicans Variegatus.—The same as the above except in foliage which is variegated by stripings of creamy white.

Price—3 year field grown 30c each; 3 for 75c; $2.00 per 10.

Hedera Helix.—(English Ivy.)—Used extensively to cover brick and stone walls and edifices of these materials. Small leaved dark glossy vine that is evergreen.

Price—30c each; $2.50 per 10.

JAPAN MAPLES

These dwarf Maples with the great variations in coloring and shaping of foliage make them extremely attractive in all landscape work. Either as specimens or in groups they develop into magnificent ornaments to any lawn.

Japonicum Aureum.—Shaded with gold and slashes of green. Contrasts beautifully with other shrubbery. Very dwarf habit and should be on the outside of all groups.

Price—18 to 24 inches $2.50 each.

Atropurpureum.—The well known deep blood red variety. Foliage is deeply cut and although at first it gets quite green during the summer when fully established it retains the red the entire season. Price—18 to 24 inches $2.00 each.

Atropurpureum Dissectum.—A decidedly weeping variety that forms an immense umbrella-like head. Leaves are cut like a fern and while young are flesh pink becoming dark red on the older plants. Price—2 ft. $3.00 each.
HARDY SHRUBS

Prices—(except where otherwise marked.)—Transplanted 25c each; $2.00 per 10.

Althea, Variegated Leaf.—A conspicuous variety with foliage finely marked with light yellow. Flowers double purple. One of the most valuable variegated leaved shrubs.

Althea, Rose of Sharon.—In assorted varieties and colors. 3 year strong 25c each.

Crataegus Oxycantha, (English Hawthorne.)—Sweet single white flowers and pretty foliage. 18 to 30 inches.

Deutzia Gracilis.—Graceful white flowering round compact bush. 3 year clumps.

Deutzia Gracilis Rosea.—Pink low and handsome 2 year.

Deutzia, Pride of Rochester.—Profuse bloomer double white 18 to 24 inches.

Deutzia Lemoinei.—Rather low growing shrub with slender arching branches white flowers in great profusion and large clusters. 2 year strong.

Forsythia Virridissima.—A fine hardy shrub bright yellow flowers blooms early.

Hydrangea Paniculata Grandiflora.—A fine shrub growing from 6 to 8 feet high but can be kept pruned to a low bush. Very showy from July to September with white flowers changing late in season to tints of pink and red. The most popular and finest of all the well known shrubs.

Prices—extra fine transplanted with a mass of roots.

2 ft. 25c each; $2 per 10. 2½ ft. 30c each; $2.50 per 10. 3 ft. 40c each; $3 per 10.

Tree form good heads 2 foot stem 75c each.

Rhodotypus Kerrioides, (White Kerria).—Very bushy with snow white flowers in May and later followed by a crop of shiny black berries. 2 year transplanted.

Syringa Vulgaris Alba, (Common White Lilac.)—White 2 year transplanted.

Viburnum Plicatum, (Japan Snowball.)—Has a very rich deep green foliage, of handsome form and beautiful globular heads of pure white flowers, quite distinct from those of the common sort. One of the best ornamental shrubs.

Price—2 feet, 40c each; $3.50 per 10.

Weigela Rosea.—Rose colored flowers, 2 year transplanted.

Weigela Eva Rathke.—New, free bloomer, reddish purple.

Weigela Candida.—Pure white.

Hydrangea Arborescens Grandiflora Alba.—The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished.

HEDGING

California Privet.—It is a vigorous grower everywhere and even in cities where nothing else will survive it stands up well and for seashore planting it has no competitor at all. Very vigorous and hardy; form, pyramidal; foliage, deep green, bright and glossy. Decidedly the finest and best of all plants for forming an ornamental hedge, its foliage being so abundant as to produce a wall of the deepest, richest green imaginable.

American Arbor Vitae.—One of the most desirable evergreen hedge plants; best adapted for screens or wind-breaks.

Prices.—3 to 4 feet, $7.50 per 10.

Norway Spruce—When sheared the most compact screen and wind-break of all the evergreens. These were all root-pruned last spring.

Prices.—2 feet, $2.00 per 10; 3 to 4 feet, $2.50 per 10; 3 to 4 feet, $5.00 per 10.

Berberis Thunbergi.—One of the most effective plants in autumn, after most other deciduous shrubs are bare. Its small oval leaves then assume superb crimson hues, and the slender branches droop beneath their load of bright red berries, which hang on until late in winter; new and desirable.

Prices.—15 to 18 inches, 25c each; $2.00 per 10; $15 per 100.
18 to 24 inches, 30c each; $2.50 per 10.
ROSES

Roses, to us are the most desirable of all flowers. They repay you handsomely for every care and attention but will do well in any sunny, well drained place that is made rich enough and kept cultivated.

The plants that we offer are all on their own roots and two year old dormant stock that, with proper handling, will grow and produce bloom the first year.

We offer only such varieties as are hardy enough to withstand your winters provided you give them the moderate protection that any everblooming rose requires.

DIRECTIONS FOR PLANTING AND CARE OF ROSES

The soil should be made rich if possible by using one part well rotted cow manure to three parts soil. The ground should be dug to the depth of two feet and if there is a clay subsoil dig even lower and put in from 4 to 6 inches of sand, or coal ashes. Pack the soil very firmly and work up the top to the depth of three inches after planting the roses.

PLANTING.—Never put chicken nor stable manure nor fertilizer nor bone-dust near the roots. When the plants reach you the ground should be ready for planting at once. The sooner they are planted the better they will do for you. When ready to set take them from the package and soak top and roots in water that is slightly warm for one hour or more, then prepare a rather stiff bed of fresh cow-manure or clay and dip the roots when the hole is ready.

The hole should be deep enough and large enough to allow the roots to be spread out full length and for the plant to be at least one inch deeper than it was in the nursery.

Bank up the dirt around the plant for two or three inches and cut the top back to within six inches of it. If it is windy or very hot and dry cover with peach baskets for a week or ten days. This keeps the tops from drying up before the roots get a start.

DISTANCE TO PLANT.—Hybrid Teas 18 to 20 inches apart. Hybrid Perpetuals and half climbers two feet.

CARE. — Cultivate the soil at least once each week. The best spray is Bordeaux-Arsenate of Lead mixture, eight ounces to five gallons of water. It costs only 30c per pound.

WINTER PROTECTION AND SPRING PRUNING.—The best winter protection is to bank the roses for 8 to 10 inches and throw evergreen boughs or straw and brush over the tops. In early April after danger of hard freezing is over tear down your dirt bank and cut back the large stems to 8 to 10 inches and take out all small weak branches.

VARIETIES.—We offer the best Hybrid Perpetuals which bloom their great crop in June and only scattering blooms afterward, their beauty is in the great masses of buds and blooms. Hybrid Teas and Hardy Teas that are almost constant bloomers and are particularly valuable for cutting, being beautiful in bud and exceedingly fragrant; and Climbers for trellis, fence and wall coverings.

We have arranged the list of varieties according to colors and attached our prices. The descriptions are given in the alphabetically arranged list.

Our Roses are all on their own roots and are extra strong two year old dormant stock.

Antoine Revoiré.—(H. T.) Creamy white, delicately tinted with pink; extra large petals; making a bloom of decidedly distinct and beautiful form; full and double.

Bessie Brown. (H. T.)—Of a distinct type in shape and color and marvelously beautiful. Erect stems; full, deep blooms with enormous petals; white, flushed with pink, growing deeper toward center.

Climbing Etoile de France. (H. T.)—Brilliant red-crimson velvet, centering to vivid cerise; identical with Etoile de France except a very much stronger grower.

Climbing Kaiserin—(Mrs. Robert Peary.) (H. T.)—Ivory-white, identical with the parent, Kaiserin Augusta Victoria, except a very much stronger grower.

Climbing Killarney. (H. T.)—Brilliant sparkling pink with hipped pointed buds, broad wax-like petals with silvery edges and enormous semi-full flowers of exceeding beauty. One of the very finest forcers. Very much stronger grower than Killarney.
Climbing Sunburst. (H. T.)—Orange-copper or golden-orange and golden-yellow, all intense shades, giving an extremely brilliant effect. A giant rose, long stems, pointed buds, vigorous, free and healthy, with splendid keeping qualities. Very much stronger grower than Sunburst.

Columbia. (H. T.)—Peach-blow pink, deepening to a glowing and enduring color. A large rose with long, stiff stems, nearly thornless; absolutely free from mildew. This beautiful rose has proven itself one of the best bedding or garden varieties, as it is of strong, robust habit of growth and exceptionally free blooming. The flowers, which are of good size, are perfect in form, both in bud as well as when full expanded.

Richards of Wellington. (H. T.)—Intense saffron-yellow, flushed changing to deep coppery-yellow. Long pointed buds. Considered by many the best yellow H. T.

Edward Mawley. (H. T.)—Velvet-crimson of a deep, rich color on huge petals beautifully arranged to form faultless blooms of wonderful depth, sweetly perfumed and never off color in the hottest weather. Growth handsome, uniform and perfect, bud a trifle stronger grower than the parent, with a trifle more height. An ideal, free and perpetual blooming flowering garden rose promising success as a forcer.

Etoile de France. (H. T.)—A brilliant shade of rose-red, of the best velvety crimson, centering to vivid cerise; large flowers on long, stiff stems; remarkably vigorous, free-blooming and hardy. Its chief value lies in its striking beauty as an outdoor bloomer and for sale with bronze-green foliage and large, attractive buds.

Frau Karl Druschki. (H. P.)—The White American Beauty. A vigorous grower everywhere, with bright green leaves, delicately veined; splendid long buds and magnificent snow-white blooms with large, pleated petals.

Gen'l. Jacqueminot. (H. P.)—A celebrated and much sought after variety, both for planting out and pot forcing; shapely buds and handsome blooms of bright, shining crimson, rich, brilliant, velvety and fragrant. Everybody knows and wants the "Jack" for its all round good qualities.

Gen'l. McArthur. (H. T.)—Bright, scarlet, large, full and very free, erect branching habit and very perpetual. One of the finest and most fragrant roses grown. The most beautiful shade of any garden or forcing rose offered, retaining its brilliancy when expanded to flowers of superb form, larger than Liberty or Meteor; free from mildew.

Hadley. (H. T.)—Deep, rich, velvety crimson, retaining its brilliancy throughout the year. Well formed buds and large, double flowers on rapid growing, long and stiff stems, prolific during all seasons with a fragrance excelled only by American Beauty.

Kilarney Brilliant. (H. T.)—Newest member of its family. Color varying from crimson-pink in winter to a bright, true pink in hot weather, brilliant throughout the year. As free a producer and a trifle stronger grower than the parent, with nearly double the petals. Same growth and style as Kilarney, and like it varies considerably in color. Shady weather it is almost deep crimson.

Killarney Pink. (H. T.)—Brilliant sparkling pink with large, pointed buds, broad, wax-like petals with silvery edges and enormous semi-full flowers of exceeding beauty. One of the very finest forcers.

Killarney White. (H. T.)—A sport from Killarney. It is pure white in color, long in bud, of fine form.

Kaiserin Augusta Victoria. (H. T.)—Creamy-white flowers of immense substance, smooth and nodding. Splendid, large buds and super AB. full double blooms, making the choicest cut flowers. A most sturdy grower, blooming steadily from early spring until late frost.

La Detroit. (H. T.)—Shell-pink, shading to soft-rose. Large, full, upright and strong.

Madame Abel Chatenay. (H. T.)—A good grower and perpetual bloomer; large and beautiful in bud and bloom; deep, recurved petals of rose-pink, with a tinge of salmon. Bright, pretty and popular.

Maman Cochet. (T.)—Rich, rosy-pink, shaded silvery-rose on outer petals; exquisite in color and graceful in form from bud to bloom and delightful fully through the season. A beautiful, healthy foliage and long, stiff stems. Unquestionably the queen of pink Tea Roses.

Mrs. Aaron Ward. (H. T.)—A most striking color, Indian-yellow shading to lemon-cream at the petal tips. Very large and full, of refined form, cabled and very deep, effectively showing the golden heart. Conceded to be a splendid new garden rose.

Ophelia. (H. T.)—Brilliant salmon-pink shaded with rose on outer edges of petals, with a heart of glowing peach-pink and orange yellow blends, all passing finally to lighter shades; faultless form in bud and flower; erect habit, stiff, long stems; free and continuous in growth and bloom; handsome, bright foliage; immune to mildew and black spot; possesses every requisite of a perfect forcing rose.

Sunburst. (H. T.)—Deep cadmium-yellow with orange-yellow center; large, full and beautiful form. Orange-copper or golden-orange and golden-yellow, all immense, frilled, changing to an excellent brilliant effect. A giant rose, long stems, long, pointed buds, vigorous, free and healthy, with splendid keeping qualities.

Tipperary. (H. T.)—Clear yellow, slender and pointed; opening to a full roseate with shining surface; long stiff stems in profusion, each tipped with a flower admirably adapted for corsage and fancy table decoration. An Irish seedling of Mrs. Aaron Ward.

White Maman Cochet. (T.)—Very large and beautifully formed in bud and bloom; pure waxy-white under glass, taking on a faint pink flush out of doors which enhances its beauty. Vigorous and produces abundantly for cutting.

RAMBLERS OR TRUE CLIMBING ROSES

Price—40c each; $1.00 for 3; $2.75 per 10, for all except Dr. Van Fleet.

Crimson Rambler.—This is too well known to require much of a description. Very free flowering, and a strong grower bearing immense clusters of crimson flowers which are bright and vivid in color.

Everblooming Crimson Rambler. (Flower of Fairfield).—This is almost identical in every respect to the Crimson Rambler with the exception that it is an everblooming variety. The flowers are more brilliant. The growth is vigorous. It blooms continuously throughout the season.

Dorothy Perkins.—A climbing rose resembling the Crimson Rambler. It is of beautiful shell pink, full and double. For fences, wall and low trellis these roses grow nothing equal.

Excelsa. (Red Dorothy Perkins).—Crimson scarlet, double flowers in brilliant clusters set in glossy, shiny foliage; an intensified crimson rambler which it promises to displace.

Dr. W. Van Fleet.—A new climber of exceptional beauty. A splendid rose, one of the choicest of all beautiful foliage immune from mildew. A profuse bloomer, beginning with the Hybrid Teas and continuing all season. A very fresh bloom every three weeks. No description can tell of the delicate texture, exquisite coloring and delicious perfume nor can any picture do justice to its beautiful crimson form. A large rose, with red, rosy flesh shading in the center to a pretty rose pink. Flowers produced on splendid long stems.

Price—50c each; 3 for $1.20.
EVERGREEN SHRUBS

Kalmia Latifolia. (Mountain Laurel or Calico Bush.)—Of all the broad leaf evergreens this is one of the handsomest both in flower and foliage. The leaves are broad and of beautiful glossy green. The flowers bloom in loose clusters at the terminals. The color is rose pink with spots of rich and velvety reddish brown. Very desirable for planting either alone or with Rhododendrons or Azaleas. The stock is usually grown and balled.

Price.—2 ft. with buds that will bloom this year, $1.50 each; 4 ft. per 3.

ANDROMEDA

A Floribunda. A low compact evergreen with great number of small dark green leaves that are channelled and hairy along edges. Branches and leaf stalks are dull red and hairy. Flowers are white in dense panicles that resemble Lily-of-the-Valley. Hardy.

Price.—15 inch, $1.00 each.

A Japonica. —Is a little higher than Floribunda but remains very compact in form. Branches and leaves are quite smooth. Leaves are narrow and toothed. Buds are dull red and flowers open white and wax-like in the spring. Very desirable for edging for Rhododendrons and other shrubbery. Does well in shady places.

Price.—15 inch, $1.00; $2.50 for 3.

AZALEA

A Amona. —One of the most beautiful flowering evergreens we have to offer. It is a low growing plant that is perfectly hardy. The droopy bronze tinted foliage makes a fine appearance in the fall and winter. In the early spring it is covered with flowers of a bright rosy purple.

Price.—12 to 15-in., $1.50 each; for $4.00.

A Hinoedegiri. —A brigh tascari flowering variety of Amona.

Price.—12 inches, $1.50 each.

MAHONIA

M. Aquifolium. —A low compact evergreen with broad prickly leaves covered on under side with brownish hairs. Flowers are of bright yellow. A very desirable plant to use with Azalea Amona and Ilex Glabra.

Price.—4 year, transplanted, 35c; 3 for 75c.

COnIFEROUS EVERGREENS

ABIES. (The Firs)

Abies Concolor. (Silver Fir.) —One of the hardest evergreens withstanding the most severe weather in New England. The tree grows rapidly and is of stately and graceful form. Foliage is large and broad of silvery green. It bears few cones of purple and yellow.

Price.—3 ft., $3.00.

Abies Nobilis Glauca. (Noble Silver Fir.) —Tree is erect, dense with horizontal branches of imposing appearance. Foliage is wide, dark bluish green with silvery undersurface. One of the very finest of the hardy evergreens.

Prices.—2 ft., $2.50; 1 ft., $1.25.

Abies Nordmanni. (Nordmanns Fir.) —Thick, dense tree of fine proportions. The needles are wide, dark green and lustrous, with a silvery undersurface that sparkles in the sun. This is one of the prettiest and best evergreens. We endorse it fully as the most striking tree in our collection.

Price.—Fine specimens, 4 ft., very broad, balled, $2.00 each.

BIOTA

Biota Aurea Nana. (Berchmans Golden Arbor Vitae.) —A dwarf dense golden variety that will attract attention and admiration above anything in the nursery or on the lawn. It is usually as broad as tall and is the best of the golden or dwarf evergreens.

Price.—2 ft., $2.50; 18-inch, $2.00.

CUPRESSUS (Cypress)

Cupressus Lawsoniana. (Triomphe of Boskoop.) A most handsome distinctive evergreen with prominent foliage of beautiful bluish green foliage that droops slightly at the tips.

Price.—3 ft., $1.25 for fine pruned specimens.

Juniperus Sabina Tamariscifolia. (Gray Carpet Juniper.) —A spreading broad top variety with beautiful green needle like leaves; the most pleasing of the trailing evergreens.

Prices.—15 in., broad head, $1.25.

Picea Excelsa. (Norway Spruce.) —The well known rapid growing variety that does well everywhere. If untrimmed it becomes a wide spreading magnificent tree but by pruning can be used as a close clipped hedge for many shrub beds and screens.

Prices.—Not Balled. 15 to 18 inch, 30c each; $2.00 per 10. 2 to 3 ft., 40c each; $2.50 per 10. 3 to 4 ft., 60c each; $5.00 per 10.

Picea Excelsa Inverta. —A species of Norway Spruce that grows its branches downward and to which the fullest of blossoms as closely as possible.

Price.—2 ft., $1.50.

Picea Pungens Glauca Kosteri Compacta. (Kosteri Blue Spruce) —The bluest of all evergreens and the one that is best known. It makes beautiful specimens because of its striking color, uniform shape and dense foliage.

Prices.—2 ft., $2.00; 1 foot, $1.25.

DOUGLAS SPRUCE

Pseudotsuga Douglasii. —The tree is very similar to the spruces being very symmetrical and round in form. It is a rapid grower and is becoming more popular as it is better known.

Prices.—2 ft., $2.00; 1 ft., $1.25.

RETINOSPORA

Ret. Plumosa Aurea. —The most popular of all the golden evergreens. It is low branched and a vigorous grower. Especially valuable for contrast masses and small lawns.

Price.—2 ft., $2.00.

Ret. Squarrosa Veitchii. —A beautiful variety with bluish green foliage that is spreading and prickly; very dense grower, feathery and attractive

Price.—$1 1/2 ft. to 2 ft., $2.50.

SCIADOPITYS

Sciadopitys Verticillata. (Japan Umbrella Pine.) —A very rare and beautiful tree for specimen planting. The leaves are very long, wide and thick and are arranged in whorls of 15 to 25. The color is of lustrous deep green. The terminals of the branches are like inverted umbrella ribs.

Price.—18 to 24 in., $2.00 each.

THUYA. (Arbor Vitae)

Thuja Occidentalis. (Common American Arbor Vitae.) —Well known by its universal use as a hedge or screen.

Prices.—Not Balled.

2 1/2 to 3 feet, $1.00 each; 3 for $2.50.

2 to 2 1/2 feet, 75c each; 3 for $2.00.

12 to 15 inches, 35c each; 3 for 75c.

Thuja Occidentalis Pyramidalis. —A fine attractive pyramidal tree with beautiful shining dark green foliage. The finest of all the Arbor Vitae class.

Prices.—2 ft., $1.50; 1 foot, $1.00.

TSUGA. (Hemlock Spruce)

Tsuga Canadensis. (Common Hemlock.) —A handsome evergreen with slender branches that weep slightly. As specimens with proper shearing it can not be excelled by any other evergreen tree. As a hedge or screen it is compact and beautiful.

Prices.

2 to 2 1/2 ft., $1.25 each; 3 for $3.00.

2 1/2 to 3 ft., $1.50 each; 3 for $4.00.

Tsuga Canadensis Sargentii Pendula. — A rare and beautiful broad species of graceful, permanent, weeping habit; showing a slight blue in the foliage; compact and rather slow grower.

Price.—12 to 15-in., $1.50.

GUARANTEE AND CONDITIONS OF SALE

We have no connection whatever with any other nursery, and our responsibility extends only to persons purchasing direct from us. We also disclaim any responsibility for failure arising from defective planting, or from subsequent faulty treatment of cultivation, and we are not in any respect responsible for any loss or damage arising from any failure therefrom.

While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, expressed or implied, with respect to them; and all such goods are sold upon the express condition otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

NOTICE—All claims for defective stock must be made at once upon receipt of same. Address all orders and communications to

JOS. H. BLACK, SON & CO., Hightstown, N. J.
